

Screen print

We can print to Pantone, but please note that printing bright colours on dark backgrounds will dull the ink to some degree

Foil blocking

Available in gold or silver, with the maximum emboss size at 120 x 90mm per emboss. Please note the logo's lay flat - they are not embossed.

4 colour digital logos

For complicated 2+ colour, and logos with tints, where registration with conventional screen printing is impossible, we recommend our new 4 col digital print system

Resin domed labels

This method can be a convenient solution to 4 colour process logos, or simply as an attractive and different branding solution. We pre emboss a cavity the same size as the labels to provide greater protection for the labels that are glued in. We can supply these labels or receive them from our clients for application only.

Embossing

Blind embossing is a permanent and classical way of branding leather products in particular, but is best seen on belluno PU where it creates a colour change effect as shown above.

Flow moulding

This process provides a unique solution to complex and bespoke branding/design.

4 colour digital photography

Also new is our ability to do digitally print photographs, from jpeg, direct to our products.

Artwork

Bromides at 100% or PC formatted artwork saved as EPS files are preferred, but we can also accept CoralDraw and Adobe Illustrator files. Fonts should always be saved as outlines. CD/DVDs should be accompanied by a hard copy version.

Colours

Although we take every effort to accurately represent product colours, due to the nature of the colour print process, some product colours may not be shown as strictly accurate. If in doubt, please ask to see samples.

Corporate Logo's

Products carrying names and trademarks shown in this catalogue do not necessary imply that the products have been supplied to or endorsed by the owner of the trademark, but are meant to be representative of the effect that can be achieved by the creative personalising of merchandise.

Sampling and pre production proofs

Samples will be invoiced, and sent by RMSD, unless otherwise notified. Fully branded pre production proofs are available, time permitting. Every order will receive a pdf template proof approval.

Presentation Packaging

We can supply branded presentation boxes for most products for that extra finishing touch, subject to minimums, extra costs and extended lead times.
